

Mechanical Engineer

Middleburg Heights, OH

Description

Provide requirements derivation and management for space flight experiments and systems. Will work with a multi-disciplinary team to support full life cycle product development.

Duties & Responsibilities:

- Assist in the planning, coordination, and execution of space systems tests & experiments.
- Create Test Reports/Presentations of complex data sets.
- Provide systems engineering support and integration to multiple projects

Requirements

- **U.S. CITIZENSHIP OR VALID GREEN CARD REQUIRED**
- Bachelor's in mechanical or aerospace engineering
- 3-7 years of experience with systems engineering principals and processes such as those used by NASA, DoD, or similar organizations
- Experience with requirements and standards management
- Understanding of drawing GD&T required.
- Excellent problem solving and troubleshooting skills; creativity in researching solutions.
- Strong verbal and written communications skills

Preferences

- An understanding of environmental testing (MIL, RTCA/FAA or NASA) is desired.
- Advanced degree in engineering, science, or related disciplines
- MATLAB
- Space Flight experience

About Us

ZIN Technologies, Inc. is a federal contractor and an award-winning AS 9100 registered small, disadvantaged business (SDB) headquartered in Northeast Ohio. Established in 1957, ZIN is a leader in providing advanced engineering services and product development solutions for NASA, DoD, and private industry.

ZIN provides full lifecycle development of aerospace systems including design, development, engineering, integration, test, evaluation, orbital operations, systems modeling, simulation, verification, and validation. The flight hardware lifecycle spans concept definition, design, development, fabrication, verification, integration, launch, operations, and data processing.

We offer expertise in multi-discipline engineering, system and product development, production, and research and technology development. ZIN'S engineering capabilities include systems, mechanical, electrical, fluids, propulsion, structural, thermal, integration and test.

ZIN has a strong heritage in the areas of Space Operations including payload operations, space communications, navigation and network reconfigurable testbed. ZIN supports exploration systems (ORION, SLS, ISS, commercial vehicles) and space technologies (advanced communications, power, propulsion, cryogenics).

Our award-winning 250+ person organization consists of scientists, engineers, designers, and technicians. ZIN employs an integrated performance-based management approach, providing experienced people, proven processes and tools and exceptional cost, schedule, and technical performance while identifying and managing program and project risks.

Offering Unsurpassed Product, Process and Service:

- Prime contractor
- Sub-contractor
- Product manufacturer
- Value-added service provider

Company Benefits and Programs

In addition to competitive salaries, ZIN offers excellent benefits to our associates, including medical, vision, and dental insurance; short- and long-term disability; life insurance; paid leave and paid holidays; 401(k) retirement plan (immediate vesting); education and training reimbursement; professional development opportunities; employee assistance program; flexible spending plans; credit union membership; and direct deposit.

As a federal contractor, ZIN Technologies strives to comply with all applicable customer, federal, state, and local requirements, up to, and including, COVID-19 vaccine regulations. ZIN Technologies may require its employees to obtain full COVID-19 vaccination, provide proof of vaccination status as a condition of employment, provide documentation to substantiate a valid exemption, as defined by law, and/or comply with all safety protocols related to COVID testing, mask wearing, and physical distancing while in covered contractor workplaces.
